

# CARBONATTACK AEROSOL

FOAMING CARBON REMOVER

CARBON MOLY

## PRODUCT DESCRIPTION

CARBONATTACK is formulated to chemically act on heavy carbon fouling. The product eliminates carbon residue from many different origins, whether baked on particles or simply dust-like.

The balance of chemicals selected for the product amalgamates into a solvent that not only delivers extensive results but also allows for a safe and harmless product with a pleasant citrus odor to cater to the removal of stubborn hard-to-clean carbon fouling.

CARBONATTACK is a versatile product with many applications for almost all rifles, shotguns, and sidearms.

AEROSOL  
120 ml | VLD - CAR120

## RECOMMENDED DIRECTIONS

### BORE CLEANING

- STEP 1** SECURE AND UNLOAD THE FIREARM
- STEP 2** Wet 3 patches with CARBONATTACK and push through the barrel. Run patches slowly to give solvent time to react with the bore surface.
- STEP 3** Run 10 passes through using a Nylon brush soaked in CARBONATTACK. Wet and run through another 4 patches with CARBONATTACK and leave for 5 minutes. Extend the time for extreme fouling.
- STEP 4** Make use of patches containing CARBONATTACK and run them through until patches contain no residue at the barrel tip. Finish with 2 dry patches.
- STEP 5** Before storing the firearm dampen a patch with VELDT Gun Oil as this will prevent rust and dust from settling on your firearm.
- STEP 6** Always run a clean, dry patch through the rearm before use to prevent any obstructions.

### PLEASE NOTE

This product is not intended for use on wood, varnishes, coatings, plastic and polymers.

## RECOMMENDED

REMOVAL OF HEAVY  
AND BAKED ON CARBON FOULING.  
GREASE, MOLY AND OILS.

## COMPATIBILITY

AR, BOLT AND CARRIER  
SHOTGUNS  
PISTOLS  
REVOLVER CYLINDERS  
BLACK POWDER WEAPONS  
OLDER NEGLECTED WEAPONS

## SPECIAL ABILITY

CARBONATTACK is formulated to act specifically on carbon and powder residue. This product boasts with VELDT particle suspension chemistry that allows particles to be suspended and deter from re-settling.

CARBONATTACK is not only a bore cleaner and can also be used as a metal cleaning spray on muzzles, pistols and especially black powder rifles and pistols. Simply spray, wait a minute and wipe clean.

Superior cleaning ability with precision chemical technology for the precision enthusiast.

## TRY OUT OUR RANGE OF COMPATIBLE PRODUCTS

LUBRICANT COMBO PACK

VELDT Lubricant Combo Pack consists of 3 of the world's best gun lubricant applications.

- GT 150 is an all-round traditional gun oil for preventing rust and repelling water.
- P51 is used to neutralize and clean powder while still providing the added protection needed, ideal for quick cleans on the go.
- RIFLEARMOR with its microtechnology dry film will leave your metal parts under a shield of protection, whether it is for long-term storage or the harsh environment it is exposed to.
