

UTILITY BLEND

EQUIPMENT DEGREASER

OIL

DIRT

GREASE

PRODUCT DESCRIPTION

UTILITY BLEND is a 2-in-1 surfactant concentrate focused on the cleaning of gun parts and equipment. This product might be classified as a degreaser but it surely packs a punch. With no ammonia or caustic in the formulation, this product will be 100% suitable for all gear that requires a thorough cleaning.

This cleaner was technologically developed and formulated to effectively act on oil, dirt, grease, carbon build-up, and powder residue and can be used to clean internal and external parts.

UTILITY BLEND is Ammonia-free and biodegradable. This product is safe to use in ultrasonic cleaners. Always suspend coated equipment in ultrasonic cleaners to avoid flaking of coatings. Just add lukewarm water and see this product work its magic.

500 ml | VLD - UTB500

RECOMMENDED DIRECTIONS

- 40:1 for normal to moderate cleaning required. (25ml/L H2O)
- 20:1 for heavy to extreme cleaning required. (50ml/L H2O)
- Using distilled water will increase the chemical's cleaning ability. The solution can be heated to between 50-60C in an ultrasonic cleaner. Parts and equipment can be treated for 15-20 minutes.
- Do not keep equipment soaked in the solution for prolonged periods as this might discolor or tarnish the finish.
- Rinse equipment properly using tap water. Repeat the soaking process if the cases are not clean.
- RIFLE ARMOR or dry film oil can be used on parts after drying

RECOMMENDED

REMOVAL OF OIL, GREASE,
CARBON BUILDUP, DIRT AND
POWDER RESIDUE

COMPATIBILITY

ROTARY TUMBLER
ULTRASONIC CLEANERS

LEGAL DISCLAIMER

SPECIAL ABILITY

Can be used diluted or un-diluted. Water based cleaner that will leave the targeted equipment squeaky clean.

This solution is safe to use on all equipment, when diluted properly, as a wipe or wash.

Next generation de-greaser for general cleaning of and washing of equipment.

Superior cleaning ability with precision chemical technology for the precision enthusiast.

IMPORTANT NOTES

- When using painted or coated equipment in ultrasonic cleaners, the part needs to be suspended inside the solution.
- NEVER put coated parts on the ultrasonic cleaner floor. Clean ultrasonic and tumblers thoroughly after cleaning casings. Cleaning gun parts after cleaning casings might lead to plating.
- Do not leave equipment exposed for infinite amount of time without supervision as casings may tarnish
