

SHOTGUN

BARREL SWEEP

CARBON	LEAD	PLASTIC
--------	------	---------

BORE CLEANERS

PRODUCT DESCRIPTION

SHOTGUN BARREL SWEEP is primarily designed to focus its cleaning on lead, powder, and plastic wad residue in shotgun barrels. SHOTGUN BARREL SWEEP is also designed to aid in the cleaning of forcing cones, semi-auto gun ports, and chokes.

This product takes shotgun cleaning to the next level with the focused removal of unwanted elements to keep you shooting for longer without having to worry about excessive fouling that might hamper equipment.

SHOTGUN BARREL SWEEP was designed with the ultimate shotgun marksman in mind - why spend time at the cleaning bench when you can spend it on the range?

60 ml | VLD - SBS60

150 ml | VLD - SBS150

RECOMMENDED DIRECTIONS

BORE CLEANING

- STEP 1** Secure and unload the firearm.
- STEP 2** Wet 3 patches with SHOTGUN Barrel Sweep and push through the barrel. Run patches slowly through to give solvent time to react with the bore surface.
- STEP 3** Run 10 passes through using a nylon brush soaked in SHOTGUN Barrel Sweep. Do not use a brass brush.
- STEP 4** Wet another 4 patches with SHOTGUN Barrel Sweep, run through, then leave the product in the bore for 3-5 minutes. Extend the time for extreme fouling.
- STEP 5** Continuously run dry patches through until the patches gather no residue at the barrel tip.
- STEP 6** Before storing your firearm dampen a patch with GT150 GUN OIL, run it through the bore as this will prevent rust and dust from settling on your firearm. For long-term storage use RIFLEARMOR.
- STEP 7** Always run a clean, dry patch through the firearm before use to prevent any obstructions

PLEASE NOTE This product is not intended for use on wood, varnishes, coatings, plastic, and polymers. It may not harm it but it was not intended for this purpose.

RECOMMENDED

REMOVAL OF PLASTICS,
LEAD AND CARBON

COMPATIBILITY

SHOTGUNS
CHOKES
FORCING CONES
SEMI AUTO GUN PORTS

SPECIAL ABILITY

SHOTGUN Barrel Sweep has a chemical composition ideal for aiding the removal of plastic residue. This product delivered excellent results when cleaning semi-auto gas ports.

Plastic residue cannot be dissolved without making use of chemicals that pose a threat to the condition of your firearm and yourself. The selection of chemicals in this product ensures that you spend the least time at the cleaning bench.

Superior cleaning ability with precision chemical technology for the precision enthusiast.
