

# GT 150

## TRADITIONAL GUN OIL

### PRODUCT DESCRIPTION

GT150 is a traditional synthetic gun oil developed for a multitude of uses. Don't let the sweet smell fool you, this is a serious oil for serious marksmen.

The oil has a limited spill property to ensure that no oil goes to waste during use. Tested by some of the best marksmen in South Africa, this oil has proven that it can deliver the extensive scope that is required from such a high-caliber oil.

Stock and barrel, mechanisms, or knives - no matter what the application, this oil will leave your equipment smelling great and protected for longer.

60 ml | VLD - GT60

150 ml | VLD - GT150

### RECOMMENDED DIRECTIONS

- Secure and unload the firearm.
- Clean areas to be treated and leave until it's completely dry.
- Apply GT150 to all moving parts.
- Cycle the parts several times to distribute the oil evenly and ensure that the oil is in proper contact with all parts.
- When applying GT150 to the rifle or sidearm bore, wet a patch or a mop and pass through the bore until a light oil coating is attained.
- It is always advised to run a dry patch through the bore before using the firearm.
- This will remove any residue and safeguard against obstructions

### SPECIAL ABILITY

Tacky non-drip technology leaves less oil dripping and running. This ensures that every golden drop reaches its target as accurately as possible. A small drop goes a long way....

This is a synthetic based oil for multiple rifle and knife uses. With a carefully selected viscosity, ideal for its intended use, this product leaves a protective film and remains in place. This oil can also be used on knives to lubricate and protect.

Superior cleaning ability with precision chemical technology for the precision enthusiast.
