

P51

CLP PENETRATING OIL

SOOT	RESIDUE	CARBON
------	---------	--------

PRODUCT DESCRIPTION

P51 is a penetrating oil developed for a multitude of uses. This oil packs a punch, as the pressurized content provides the best results during use. Not only does this oil help protect, but it also offers the additional benefit of exceptional cleaning.

Tested by some of the best marksmen in South Africa, this oil was put through its paces with a large number of tests resulting in the development of a superior product to service our hunting legacy.

Not suited for soft rubber O-rings.

AEROSOL

120 ml | VLD - P51120

RECOMMENDED DIRECTIONS

- Secure and unload the firearm. P51 is designed as a CLP and will clean, lubricate and protect your firearm and equipment.
- P51 is knife and firearm friendly and can be used on a large array of latches, swivels, and surfaces experiencing friction and sliding.
- Always ensure that the can is facing away from your face and coat the targeted metal surface.
- Make use of the can's elongated spout to focus P51 at the target area. P51 will penetrate and clean the area immediately.
- Wipe sprayed surfaces with a clean cloth if excess oil is visible on the surface.
- This product will act on rusted and corroded metal surfaces and contains ingredients that will neutralize any corrosive solvent and leave the surface clean and corrosion-free.
- Use this on everything that needs it; if it is stubborn or jammed it needs P51.
