

# RIFLEARMOR

## DRY FILM LUBRICANT

### PRODUCT DESCRIPTION

RIFLEARMOR is a protecting oil developed to produce a thin waxy layer on equipment to protect surfaces and repel water while avoiding dust and debris from settling. The product is exceptionally well suited for long-term storage of equipment and designed specifically for storage between hunts or whilst travelling.

Parts such as triggers are safeguarded from the elements when treated with this product. Tested by some of the best marksmen in South Africa, this oil has a clean, dry film application that dries quickly and leaves no messy or greasy trace on equipment. Spray the desired equipment leave to dry for 2-5 minutes and re-cote if required.

Every layer will add additional protection.  
Wax on..., wax off..., easy and effective.

**AEROSOL**

**120 ml | VLD - RAR120**

### RECOMMENDED DIRECTIONS

- Secure and unload the firearm
- This product should not be applied in air rifle barrels.
- Remove oil, grease, and surface contamination from the target area.
- Developed for use on triggers and various other applications, RIFLEARMOR will prevent rust and dust by leaving a dry non-stick layer.
- Always ensure that the can is facing away from your face when you coat the targeted metal surface. RIFLEARMOR will leave a micro-protective layer on the metal surface after drying.
- Apply RIFLEARMOR to the bore with a mop. A rag wetted with the product can also be used to wipe metal surfaces.
- For long-term storage or additional protection in extreme environments, wait approximately 5-10 minutes to apply a second coat.
- Run a clean patch through the bore before using the firearm to remove any residue and safeguard against obstructions.
- CARBONATTACK can be used to remove any unwanted wax.

### SPECIAL ABILITY

RIFLEARMOR leaves a protective microfilm on your equipment. Non-sticky to the touch if and when applied correctly.

Best used to safeguard triggers from dust and debris. The thin protective layer will dry in a few minutes. Each application done after drying will increase the protection.

Superior cleaning ability with precision chemical technology for the precision enthusiast.
