

RIMFIRE

BORE CLEANER

CARBON

WAX

LEAD

PRODUCT DESCRIPTION

RIMFIRE Bore Cleaner is specially formulated to remove a wide range of bore fouling residues and particles associated with using rimfire ammunition.

RIMFIRE Bore Cleaner utilizes a technologically advanced formulation made especially to not only keep gun users happy but also the environment they shoot in. RIMFIRE Bore Cleaner is barrel safe and contains no harmful chemicals that might harm your equipment or the environment.

Less hazardous chemicals with limited odor and toxicity will surely be an added benefit in your arsenal.

60 ml | VLD - RMF60

150 ml | VLD - RMF150

RECOMMENDED DIRECTIONS

BORE CLEANING

- STEP 1** Secure and unload the firearm.
- STEP 2** Wet 3 patches with RIMFIRE and push through the barrel. Run patches slowly through to give solvent time to react with the bore surface.
- STEP 3** Run 10 passes through using a nylon brush soaked in RIMFIRE. Do not use a brass brush.
- STEP 4** Wet another 3 patches with RIMFIRE, run through, then leave the product in the bore for 3-5 minutes. Extend the time for extreme fouling.
- STEP 5** Continuously run dry patches through until the patches gather no residue at the barrel tip.
- STEP 6** Before storing your firearm dampen a patch with GT150 GUN OIL, run it through the bore as this will prevent rust and dust from settling on your firearm. For long-term storage use RIFLEARMOR.
- STEP 7** Always run a clean, dry patch through the firearm before use to prevent any obstructions

PLEASE NOTE This product is not intended for use on wood, varnishes, coatings, plastic, and polymers. It may not harm it but it was not intended for this purpose.

RECOMMENDED

REMOVAL OF FOULING ASSOCIATED WITH RIMFIRE AMMUNITION. LEAD, WAX AND CARBON.

COMPATIBILITY

RIMFIRE AR, BOLT AND CARRIER PISTOLS
REVOLVERS
CAST LEAD
